The Kickoff Stakeholder Workshop was a Hit!

Brian Canin with Canin Associates presented the city's strengths, weaknesses, opportunities and threats and led participants through a Community Values Survey. Each participant ranked a series of images of residential types, streets, waterfronts, and downtown development patterns by preference. The results of the survey will be presented at the Stakeholder Follow-Up Workshop on November 2nd. See you on the 2nd.

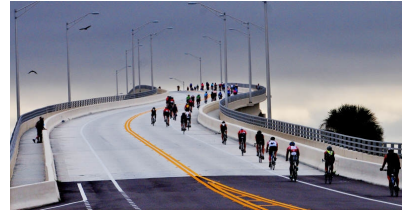

Turning challenges into opportunities for a thriving future.

We have a great place to live, work and play.

There are lots of reasons why thousands of people could live and work here in 2037. We're a city filled with great recreational opportunities and neighborhood choices. There is something for

everyone. Our fantastic weather lets us enjoy our natural resources and the world's most beautiful beaches year-round.

At the kickoff Stakeholder Workshop, several of you weighed in on long range strategies for growth, development and transportation. **View the** Strengths Weaknesses Opportunities and Threats presentation and more. Tell us more about land use strategies for Titusville and your neighborhood at our upcoming workshops.

The Vision developed this fall will inform the 2018 update of the Comprehensive Plan which guides Titusville's future development patterns.
