

One Bridge Away

The Closest Community to America's Launchpads

Titusville isn't near the action - we're part of it. Just one bridge away from Kennedy Space Center and Cape Canaveral, we offer unmatched access to the world's most active launch complex.

- Closest full-service city to NASA, SpaceX, and Blue Origin operations
- Direct line to aerospace suppliers, contractors, and innovators
- No wasted time, no long-distance barriers - you're already halfway there
- Ideal location for companies supporting the space sector and defense industries

Launch-Ready Workforce at Your Fingertips

Aerospace success demands precision and talent - and we've got both. Our workforce is trained for the industries that drive this region.

- Engineers, machinists, and high-skill technicians available now
- Apprenticeship programs and technical training aligned with aerospace and defense needs
- Talent pipeline supported by Eastern Florida State College and regional workforce partners

Infrastructure That Keeps You Connected

When you're one bridge away, every connection counts. Titusville gives your business the access and logistics

advantages that support the space supply chain.

- I-95 corridor and Florida East Coast Railway right at your door
- Space Coast Regional Airport (KTIX) just minutes away
- Close proximity to Port Canaveral for global shipping and logistics
- Broadband-ready infrastructure to keep data and communication flowing

Business Support That Moves as Fast as You Do

In aerospace, speed and certainty matter. Titusville's leadership understands your business needs and works to help you meet them.

- Streamlined permitting and fast-track approvals
- Incentives available for aerospace, manufacturing, and tech-sector investment
- Direct access to local decision-makers - responsive, not bureaucratic
- Partners who understand the pace of your industry

If you're ready to work where the launches happen, Titusville is ready for you.

#1 Globally

Cape Canaveral Spaceport is the most active orbital launch site in the world
